

## IBC REKO AdBlue container 1000 lt

1000 litre IBC container, ideal for storage and distribution of AdBlue in industrial, agricultural and transport operations. This model is not intended for the transport of hazardous substances (without UN certification). Thanks to the integrated CDS (Closed Dispense System) coupling, the pump can be easily connected, ensuring safe, clean and efficient pumping without contact with the environment. Thanks to the integrated suction tube, the liquid can be pumped from the bottom of the container. This model has a new inner container and once used construction including steel/plastic pallet. Translated with DeepL.com (free version)

**Product code:** 960061

**Number of pieces on the pallet:** 2

## Technical specification

### Features:

Colour	nature
Material	PE
Volume	1000 l
Weight	44 kg

### Outer dimensions

Length	120 cm
Width	100 cm
Height	116 cm
