

Stackable bakery crate

TBA bakery containers are designed specifically for the needs of the food industry. Thanks to their sophisticated design with ventilation holes, they ensure perfect air circulation, which helps to maintain the crispness of baked goods during transport and storage.

They are made of high quality polyethylene with high resistance to mechanical damage and low temperatures, so they can be used without problems even in refrigeration facilities.

Smooth internal surfaces allow quick and easy cleaning - important for maintaining hygiene standards. A great advantage is their stackability - full crates can be stacked safely, while empty ones slide into each other thanks to a clever swivel system, saving space considerably during reverse logistics.

Product code: 128300

Number of pieces on the pallet: 76

Technical specification

Features:

Colour	yellow
Material	HDPE
Volume	33 l
Weight	1.88 kg

Outer dimensions

Length	60 cm
Width	40 cm
Height	18 cm

Inner dimensions

Internal dimension length	55 cm
Internal dimension width	35 cm
Internal dimension height	17 cm
