

EURO crate 20x15x12 with open front

The Euro container is a versatile workhorse for all industrial sectors. It is hygienic, easy to stack, and suitable for transport and storage. Resistant to cold, contact heat, acids, and alkalis. The plastic boxes are made of high-quality polypropylene. Optimized for use in automated logistics (suitable for conveyors and roller transport systems). Ideal for organized storage of small parts thanks to the insert window. Printable, with closed handles.
