

ALC container 40x30x32 with stacking frame

ALC containers with a stacking bar are an excellent option especially in warehouses during the completion and preparation of orders. The stacking bar allows the containers to stack on each other without damaging the goods. The ideal conical shape enables quick stacking, and this is definitely a space saving. The smooth bottom facilitates smooth movement along roller runways. The preparation of goods, especially in the ecommerce sector, is thus very easy with this attribute.

Product code: 967681

Number of pieces on the pallet: 184

Technical specification

Features:

Colour	blue
Material	PP
Volume	22 l
Weight	1.39 kg

Due to the use of various raw materials, it is not possible to prevent fluctuations in color shades. All technical parameters of the products, including their dimensions and weights, are subject to changes resulting from testing conditions and manufacturing technology. No legally binding guarantees of specific properties can be inferred from the information obtained.

We reserve all rights, including the possibility of unforeseen errors and subsequent adjustments. We emphasize that the provided technical data is for informational purposes only and may be subject to changes without prior notice.

Outer dimensions

Length	40 cm
Width	30 cm
Height	32 cm

Inner dimensions

Internal dimension length	31 cm
Internal dimension width	23.5 cm
Internal dimension height	31.5 cm
